SUMMARY

Product manager with experience spanning robotics hardware, SaaS platforms, and cross-functional team leadership. Turns technical complexity into clear product direction from early customer research through shipping and scaling.

SKILLS

Product Roadmapping · Customer Discovery · Agile / Scrum · Technical Writing · Stakeholder Management

Hardware CAD · 3D Printing · Embedded Electronics · Sensors & Actuators · BOM / DFM · Prototyping

Tools Jira · Figma · HubSpot · GitHub · Google Analytics · Zapier · AI / LLMs

Technical Python · Data Architecture · REST APIs · React / Next.js · Docker

EXPERIENCE

Engrain
May 2025 – Present

Product Manager

- Drive high-impact internal initiatives focused on data architecture and technical scaling to support 5× company growth
- Evaluate and prioritize external integration partnerships using portfolio size, market influence, and usage data — building business cases alongside the CEO and Director of Product
- Serve as cross-functional "jam breaker" - unblocking complex technical projects that span multiple teams

Sunlight Media
Mar 2023 – May 2025

Project Manager

- Managed end-to-end website projects for clients including the City of Santa Monica, translating business requirements into actionable specs for development teams
- Coordinated cross-functional design and development across 10+ concurrent projects, managing stakeholder relationships from initial discovery through launch
- Led client requirements gathering, sprint planning, and delivery for custom web builds

Robotic Materials / Optio
Jun 2019 – Mar 2022

Product Manager

- Product Owner for a 6-person engineering team building a mobile robotic picking and material handling solution (UR arm, custom gripper, proprietary accessories)
- Conducted field research with Colorado manufacturers — bridged between a technical team and low-tech clients to tour facilities, run pilot programs, and validate product-market fit
- Built the sales pipeline from zero through direct outreach, trade shows, and manufacturing community engagement
- Performed competitive and market sizing research to support VC fundraising — secured HAX accelerator funding to scale product development and early customer acquisition

Earlier Roles
2013 – 2020

Bartender · Student Government · Bookkeeper · River Guide & More

- Continuously employed across diverse industries - hands on, resourceful under pressure, and comfortable with anyone

EDUCATION

University of Colorado Boulder
2015 – 2019

BS, Business Administration - Operations Management, Strategy & Entrepreneurship

ACTIVITIES & LEADERSHIP

Solo World Travel - 17 Countries · Eagle Scout · CU Bee Club Founder · Pi Kappa Alpha Chapter President · Air Force ROTC
